

A-Frame & Endurosign Stickers

Instructions on How to Remove Stickers from A-Frames & Endurosigns & Replace with New Stickers.

1. Peel off old stickers and clean residue with turps and metho.
2. To place new stickers, lay the a-frame flat with an a-frame face facing up.
3. Peel back the sticker paper a little and fold or cut off the paper access.
4. Spray a-frame face edge (where you are to place the sticker starting point) with a little soapy water.
5. Lay sticker in-line and adhere sticker edge to a-frame face using a squeegee.
6. If happy with alignment, spray rest of a-frame face ready to adhere sticker.
7. Slowly peel back the paper from sticker and sweep back and forth with squeegee to lay the sticker to the a-frame face (this can be easier with a second person holding the sticker/paper).
8. Repeat with second side & place out in sun to allow to dry.

Need Help?

The team of QSF can clean and adhere new stickers for you for a small charge of \$36.00 *

**Freight not included*
